The CrossFit Club*

Please ask your Coach about working out in these sessions.

Class Descriptions

Bootcamp- This is an intense full body workout that is guaranteed to burn more calories and fat in a single workout than anything you have ever tried before. Intensity gets better results than steady state exercise. Be prepared to sweat.

Olympic Foundations For both new and seasoned CrossFitter's alike, this workout focuses on exquisite technique and form for CrossFit. New clients are encouraged to take a minimum of 4 ON Ramps prior to participation in CrossFit classes.

CrossFit- Training is constantly varied, high intensity, functional movement. Each group session is different from the one before and every group session is structured so that no matter your fitness level you can participate. We scale repetitions and weights but we do not change the program. Intensity is relative to each athlete.

Power Bootcamp/CrossFit Open Gym- The best of both worlds is yours now with two early morning options offered at the same time. Choose between a Power Bootcamp workout OR Open Gym to do your own WOD. All levels welcome.

Open Gym- This is for people to either make up a missed WOD or to spend time working on a specific skill. Although supervised by a CrossFit trainer who is available to answer questions, they will not be leading a WOD as in a regular CrossFit class.
